

# POLYURETHANE FOAM FILTERS

## High depth-loading capabilities Low pressure drop

Group P.N.F. Inc. manufactures a full range of polyurethane foam filters made of different materials and thicknesses in standard or custom sizes.

### USES

- Ventilation systems;
- Heating systems;
- Dehumidifiers;
- Cooling systems;
- Air intakes;
- And many others.

### CHARACTERISTICS

- Combination of media available (aluminum mesh, steel mesh, activated carbon, electrostatic membrane, etc.);
- Different pore densities (PPI), thicknesses and colors available;
- Available with or without aluminum or steel channel;
- Available in sheets or pre-cut pads;
- Washable in warm water;
- Efficiency and pressure drop testing available on request;
- Anti-microbial protection available.

### ADVANTAGES

- Reduces noise;
- Captures and retains high rates of impurities;
- Easy to clean;
- Excellent durability;
- Washable;
- UL and ULC listed.
